Why did you attend this conference, training, or workshop?

I attended this conference to further my development around issues in local government and to continue to learn more about cities around the state. Since I am moved from out of state it has been helpful for me to attend these events and learn about other cities and the services and programs they offer.

What did you learn or gain from attending this conference, training, or workshop?

At this conference I learned about:

- Our neighboring community of Troy and some of the development history along Big Beaver Road.
- Continued professional development about budgeting and downtown management.
- Leadership and communication.

Why did you attend this conference, training, or workshop?

This was a good opportunity for me to learn more about the state context in which local government operates in Michigan. Coming from out of state there is a lot of key differences and history that I need to learn.

What did you learn or gain from attending this conference, training, or workshop?

They had a good session on marihuana regulations that provided an overview of the state laws, the policy evolution and the key court cases. It is always good to hear about the state legislation that is impacting the local level. I also attended sessions on emergency management and writing ordinances which were helpful and areas I am less familaïr with.
